2 Overview

3 Getting Started

BUTTON

A short press of the button will cycle the display through your current day's results in this order:

- Time
- Fuel
- Steps

Three seconds after releasing the button, the display will go into a sleep state.

When your battery is running low and needs to be recharged, a battery icon will be displayed on your first short button press. You can charge L28C using the included USB charging cable by connecting it to your computer's USB port. It takes approximately 2-3 hours for the battery to fully charge.

CONNECT AND SYNC

Connect to your computer with the built-in USB 2.0 or use the included USB cable. Bluetooth pairing to mobile phones for use with the L28C FuelBand app for iOS 4 and later; Check dd.fashioncomm.com for compatibility with other handsets.

4 View Progress and Achievements

Find out how you did this week, month and beyond. L28C breaks your activity down and graphs it up, so you can make sense of it at a glance. It also keeps track of your progress and rewards your achievements along the way.

- Daily Goal: Hit or exceed your daily goal to receive special achievements.
- Progress: View results by day, week, month, or year so you can get a big picture of your progress.
- Streaks: Get to green multiple days in a row, and you're on a streak. See how long you can keep it going.
- Records: L28C keeps track of your best day, best week, best month, and longest streak.
- Milestones: L28C rewards your success over time with Time Milestones, and your Fuel accomplishments with Fuel Milestones.

FCC ID: 2ACWQ- NXK-A01-L1

This equipment has been tested. And it found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and uses and radiates radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio /TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
